Kellogg pact.
The British note expressed preference for handling of limitation by classes, types, and categories, rather than on the French thesis of global tonnage. The British gave little encouragement to the French suggestion of a pact on non-aggression and mutual security in the Mediterranean.

The note was the answer of Mr McDonald's government to the French communication of Decem-ber 20 in which various French views with reference to the comviews with reference to the coming conference were set forth. Although London after publication of that note saw no insurmountable obstacles to a naval agreement in its expressions, certain Washington circles regarded it as distinctly clouding possibility of a five-power agreement.

MODERN STRUCTURE WILL HOUSE LARGE DEPARTMENT STORE OF FIRM

With the letting of the contract for a handsome threestory department store building to be erected at the northeast corner of Main and Collin streets by the J. M. Dyer Co. to J. E. Metcalf & Son Friday morning, the first shot was fired in the Chamber of Commerce's \$2.000,000 building project for Corsicana and at the same time one of the city's most sub-

store buildings that can be found in a city of much greater population than Corsicana. The building, of which H. O. Blanding and M. T. Horne, are associate architects, will be the last word in department store housings, having all the latest proven appliances for the convenience of the customers and the salespeople as well and modern store fixtures made by the \$1400 and other considerations.

way and ha Many New Features
Numerous new and heretofore unknown features of the 1 /er store will be found in the new building when completed, which will be about July 1st, this year, as the big department store expects to occupy their new home on that date. Several new departments will be added to the store with the completion of the new home while others will be added to and broadened in scope. Among the entirely new departments will be that of men's shoes, girls' and juniors' department, a complete boys' department and a rug department are among and a rug department are among the outstanding new departments to be added, while the infants' and gift departments will be considerably enlarged, as will other departments which have heretofore been cramp-

which have heretorore been cramped in the old quarters.

On the first floor will be the men's store, women's hosiery, purses, gloves, jewelry, toilet articles, notions, silks and wash goods. All these lines wil be expanded and enlarged in the new home.

The second floor will be the home

The second floor will be the home of women's and misses' coats, suits, dresses, furs, women's and misses' sports wear, millinery and ready-to-wear in general. There will be two beautiful French rooms on this floor, one for the ready to wear and the other for the millinery solon. There will also be in connection well lighted day-light work rooms for the alteration and the millinery. A handsome taupe chenille carpet will cover the floor. Five fitting rooms will also be a feature on this floor.

Third Floor Unique

The third floor will be very uniquely arranged and will consist of seven distinct and separate shops, with specially designed fixtures. These will be the infants' shop, the girls and juniors, the boys' shop, the gift department, luggage, rugs and draperles and house furnishings, such as linens, etc. There will also be a customers' rest room and

and draperies and house furnishings, such as linens, etc. There will also be a customers' rest room and an employees' rest room, each with all the latest conveniences for the benefit and comfort of those who come to buy and those who make such buying a pleasure. On this floor also will be a drapery work room and the advertising and display manager's office. A fitting room will be included in each separate shop where necessary.

On the first floor balcony, or the mezzanine floor which will extend across the rear of the first floor.

Public and Employees In Mind
There will be a modern electric
passenger elevator of the very best
type connecting all floors and which
will be only one of the many customers' conveniences. In fact in
the designing of the building the
convenience and comfort of the
firm's customers has been held
paramount, while at the same time
the comfort of the salespeople has
not been overlooked. In reply to
questions of a Sun representative
about the new building, J. M. Dyer,

Especial Cooling Features

Among the especial features will be the lighting and cooling systems. Ventilation will be carried out in a scientific way and the cooling system has been given especial attention. There will be electric fans at every necessary point of the various types that are found best for the purpose. The store will be comfortably cool on the very hottest summer days. Mayor C. M. Chambers of San Antonio, today stood acquitted of the charge of liquor conspiracy for which he was tried here. A jury returned a verdict last night after three hours deliberation.

Chambers was charged with conspiring with Lynn Stephens to manufacture liquor after an investigation by the state of a liquor ring. Investigation followed the ambush slaying of Capt. Charles Stevens, federal prohibition officer. Stephens has not been arrested.

Jones referred to testimony of W. L. Clayton of Anderson Clayton for many discussions of the situation.

"It doesn't stand to reason," he said, "that Clayton would give the liquor ring. Investigation followed the literature of the manipulators."

In his testimony, Clayton denied his firm had exerted an undue influence on the market.

report, reserved judgment as to its
ultimate prohibition conclusions,
"If on no other grounds than to

On the subject of observance the commission said "it is wholly impossible to set off observance of the prohibition act from the large question of the views and habits of the American people with respect to private judgment as to statutes and regulations affecting their conduct."

To meet this situation. Secretary Mellon in recommendations approved by the president proposed that carry into the United States of all persons should be prohibited except at points of entry designation.

Unified Border Patrol
The treasury secretary said a
unified border patrol under the
coast guard, which patrols the
coastal lines, should be created to
guard the border between the
designated points of entry and pre-

designated points of entry and prevent the entry of all persons and merchandise.

"The proposed unified border patrol," Mr. Mellon said, "will replace the patrols now maintained by both the customs service and the immigration service on our Mexican and Canadian boundaries, and will cover the same tarritory. Mexican and Canadian boundaries, and will cover the same territory at those patrols, thus complementing the work of the coastguard on the maritime boundaries, eliminating duplication of effort, concentrating responsibility for the protection of all our borders, and bringing about more effective coordination of the work."

In my previous messages I have requested the attention of the congress to the urgent situation which has grown up in the matter of enforcement of federal criminal laws.

After exhaustive examination of the subject, the commission on law observance and enforcement, and the officials of the department of justice and the treasury department unite in the conclusion that increasing enactment of federal criminal laws over the past twenty years, as to which violation of the grohibition laws comprises rather more than one-half of the total arrests, has finally culminated in a burden upon the federal courts of a character for which they are ill designed, and in many cases entirely beyond their capacity. The result is to delay civil causes, and of even more importance, the defeat of both justice and law enforcement. WASHINGTON, Jan. 13.—(A)—Acting Secretary of State Cotton today expressed pleasure at a statement made by Gov. Moody of Texas and the Laredo situation, in which the governor assured citizens of Texas that the federal government was doing all possible to secure the 're-opening of the Mexican consulate at Laredo.

The Moody statement, Mr. Cotton said, was transmitted to him by wire and contained assurance that District Attorney Valls at Laredo and other law officers of Texas would respect any diploma'c immunity extended Moxican officials. Citizens of the Mexican republic would be treated with complete courtesy and any of their business faithfully executed by American officials. Mr. Cotton said the statement assured him.

The governor's statement also called attention to the long standing friendship between Texas and Mexico, together with the hope that all friction would be removed shortly.

Negotiations with Mexico on the question, Cotton said, are being handled by Herschel Johnson, charge d'affaires of the American embassy in Mexico City, with the assistance of Reuben Clark, former under-secretary of state, who has been selected special ambassador to Mexico for the inauguration of President Ortiz Rubio.

Mr. Clark has been in Mexico City since Ambassador Morrow left to attend the naval conference in London.

In direct contrast with the delayed offensive tactics of their opponents, the Corsicana Tigers front linemen tore down the court when the ball was in possession of the guards, and often came down so fast that the Dallas squards were caught with three men to cover, a feat that is practically impossible, allowing the Trigers to chalk up several easy shots.

CRACK GOLFERS QUIT BATTLE ON LOS ANGELES OPEN

YOUNG OHIO PROFESSIONAL PROVES MUDDING ABILITY TO TAKE LEAD

LOS ANGELES. Jan. 13.—(P)—Half a hundred select wanderers of the national fairways today put behind them two distressing rounds of golf over the rain-soaked, windswept Riviera course, and prepared to continue play in the Los Angeles \$10,000 open tournament, cheered by the prospect of a clear day.

A young professional from Columbia. Ohio, Denny Shute, who yesterday conquered the treacherous course and the rioting elements to shoot a 74, three over par, headed this array of qualifiers with a score of 147. This gave a two-stroke advantage over his nearest rival, Horton Smith of the Missouri Ozarks. Among the discards—the eighty who failed to shoot 159 or better—were some of the country's golfing clite, including the veteran campaigner. Walter Hagen. The "Haig" yesterday picked up his ball at the end of the cighth hole and announced he "had enough."

Caught when the storm was at its peak, the British open champion took 40 strokes on the first 8 holes, after shooting an 81 in Friday's opening round.

Hagen was not alone. Fourteen others gave up in despair. Chief among these were Henry Cuici, one of the New England's leading pros; Craig Wood, winner of the Hawaiian open; Al Watrous, Detroit pro; Johnny Dawson, high ranking amateur from Chicago, and Joe Turnesa, member of the Ryder cup team.

scheduled to play the Bryan ca-gers, strong Class B team in Na-varro county, in the curtain raiser event to the scrap between the Tri-

event to the scrap between the Triangles and first string men.

Saturday night, the Triangles are scheduled to meet the Hillsboro Junion ollege basketball team on the Hillsboro court. The two teams were to have played last Saturday night, but impassable road conditions and bad weather caused the postponement of the fray until Januaryl 18th. The college quint will play a return game on the Y. M. C. A. court in the near future.

Mr. Haines of the Waco agricultural department, chamber of commerce, exhibited a number of charts and figures dealing with the deterioration of a one-crop system and also showed the advantages of rotation and diversification, along with dairying, etc. He declared that the dairy markets were coming to Texas now, and he voiced the opinion that within ten years, Texas would be the main dairying center of the nation as butter fat can be produced cheaper in Texas than in any other section.

He also showed how rotation with corn and oats had almost doubled the cotton yield as experiments had been made over a period of 11 years. He stated that the experiments showed that by rotation, a profit of \$15.96 per acre had resulted while with a straight cotton crop, only \$7.33 per acre had been obtained.

He declared that experiments had shown that with rotation of crops, the prevalent root rot of Central Texas had been decreased from 39.7

A BIG BUSINESS.

It is estimated by the president of a great motor concern that there will be a demand in 1930 for 3,390,000 new cars to replace old ones that are worn out. This is not an extravagant estimate in view of the fact that there are 25,000,000 cars in use.

If the average life of a car is seven and a half years, it will take about 3,390,000 new cars to keep those supplied who already have them, without talking into account the number of new owners each year.

It was noted a few days ago that the upkeep of the automobiles now in use costs about \$6,500,000,000 a year. Add this to the cost of the new cars needed for replace-R. He said Mrs. Hale had taken the child, who had an afflictio nin an eye, to a specalist in Austin, and Hale had gone to Austin for them in Dr. Hale's car.

The bus driver, himself injured, dragged the four occupants of the wrecked car from it just before it burst into flames. Passing motorists carried them to Lampasas and Austin. Hale, brought here, was ordered taken to a Temple hospital today when his condition appeared critical.

The mother has not been told of her child's death.

Mrs. Robert Lowry of Corsicana, daughter of Mrs. Shanks, who was injured in the accident as related in the Associated Press dispatch above, was notified of the accident early Friday morning and left at once for the bedside of her mother. The little child, who had an affliction in an eye, to a specialist in Austin, and Hale had an affliction in an eye, to a specialist in Austin, and Hale had gone to Austin for them proposed National Cotton Marketing Corporation said today they believed articles of incorporation would be completed tomorrow and selection of a head-quarters city would be made by that time.

It also was indicated that in addition to the headquarters site the committee would select a number of sales office centers through the cotton marketing territory.

In presenting Atlanta's claims for location of the proposed cotton marketing corporation head-quarters, Robert F. Maddox of Atlanta, told the organization committee of the corporation his clity had unexcelled facilities for marketing and was in the most important cotton consuming territory.

BURIAL HERE FOR BOY WHO DIED AT **LULING WEDNESDAY**

Funeral services for William Howard Price, eight-year-old son of Mr. and Mrs. J. S. Price, who died Wednesday afternoon in Luling following a short illness, were held Friday afternoon at 3 o'clock in the chapel of the Harris Corsicana Funeral Home, with J. L. Hines, pastor of the Church of Christ, officiating Interment was made in the Oakwood cemetery.

The family formerly resided in Corsicana but moved to Luling approximately six months ago, where the father was employed by the Humble Oil Company.

Surviving the deceased are his parents, one sister, Edith; two brothers, Edward and Joseph, all residing in Luling.

she was laterated and bady bluised. Her condition was said to be serious. The bus was driven by Bo Wilson of Austin. It did not carry any passengers. The automobile and the bus were wrecked. The Hale car caught fire, and Wilson extinguished the flames single handed, then walked three miles through the freezing wind and over ice to a farm house to summon help. The bus was en route to Austin and the Hales were en route to Winters from San Antonio. Dr. F. M. Hale of Ballinger, father of the critically injured man, drove here from Ballinger last night, and reported today his son's back was broken and grave fears were held that Mrs. Hale was fatally injured. He said Mrs. Hale had taken the child, who had an affliction in an eye to a specalist in Austin, and Members of the organization contains the co FOR HEADQUARTERS

Announcement To the Public!

We wish to announce to the public that we have added to our circulation department Mr. H. B. Pope of Navarro County, who will give his entire time in soliciting subscriptions to the-

Semi-Weekly Morning Light

Mr. Pope is an experienced salesman and is well known throughout the County, having lived for many years at Pickett, Eureka, Kerens, Drane and Frost.

Mr. Pope will cover the entire County in the interest of the Light and will secure both new and renewal subscriptions.

It is not necessary to say anything about the quality of the Semi-Weekly Light, as its continuous publication of over forty years with a growing

subscription list speaks for itself. The Light is better now than ever before with a number of expensive syndicate features, including a comic page and market reports.

These attractive, entertaining and educational features added with the news of the world, nation, county and community gives the subscriber all that could be expected.

MIGRATORY BIRDS ARE IDENTIFIED BY

C. A. Mullins discovered some unusual and very pretty birds in his backyard Monday morning and called the Sun office and gave a description of them. They were mouse colored, had a top knot and a yellow tip on their tail, he said. He was referred to Mrs. Jack Hagar, member of the Nature Study Club, who identified the birds as Cedar Wax Wing, natives of Illinois and Iowa. They are migratory and are spending the winter in the south.

fered a part in a Western drama because of his horse riding ability. Miss Reed went on the lot to see him work and was selected for a part when the director learned she, having been born on a ranch, could ride and shoot. That incident settled Miss Reed's fate because she became so enthralled with the work that she decided to remain in Hollywood and did.

Upon completing her work for Fox, Miss Reed received an offer to play the lead opposite Al Hoxic in "The Texas Terror" under the direction of J. P. McCowan. She has since appeared in a number of other Westerns, her riding and shooting ability, along with her good looks being contributing causes to her success. She had a particularly fine role with Art Acord in "The Oklahoma Cowboy." She appears opposite Art Mix in "Below the Border."

Miss Reed went on the lot to see him work and was selected for a pop party.

And we want you to come. The home was decorated with strings of pop corn. As each guest arrived a lolly pop sucker was given each, which they all seemed to have lots of fun.

Several new games were played, among which was an interesting pop contest. The questions and answers of the contest were:

What pop is a toty?—Poppun.

What pop is a utensil?—Popper. What pop is a utensil?—Popper. What pop is a muffin?—Popover. What pop is a muffin?—Popper. What pop is a prever.
